Logic Challenge - X dan O

Problem

Diberikan sebuah function xo(str) yang menerima satu parameter berupa string. Function akan me-return true jika jumlah karakter x sama dengan jumlah karakter o, dan false jika tidak.

Code

```
function xo(str) {
  // you can only write your code here!
}

// TEST CASES
console.log(xo('xoxoxo')); // true
console.log(xo('oxooxo')); // false
console.log(xo('oxo')); // false
console.log(xo('xxxooo')); // true
console.log(xo('xoxooxxo')); // true
```
