Logic Challenge - Bandingkan Angka

Problem

Diberikan sebuah function bandingkanAngka(angka1, angka2) yang menerima dua parameter angka. Function akan me-return nilai true jika angka2 lebih besar dari angka1, dan false jika sebaliknya. Jika kedua angka bernilai sama, function akan me-return -1.

Code

```
function bandingkanAngka(angka1, angka2) {
  // you can only write your code here!
}

// TEST CASES
console.log(bandingkanAngka(5, 8)); // true
console.log(bandingkanAngka(5, 3)); // false
console.log(bandingkanAngka(4, 4)); // -1
console.log(bandingkanAngka(3, 3)); // -1
console.log(bandingkanAngka(17, 2)); // false
```
