# Logic Challenge - Balik Kata

## Problem

Diberikan sebuah function balikKata(kata) yang menerima satu parameter berupa string. Function akan me-return kata yang dibalik. Contoh, jika kata adalah "John Doe", function akan me-return "eoD nhoJ".

## Code

```
function balikKata(kata) {
  // you can only write your code here!
}

// TEST CASES
console.log(balikKata('Hello World and Coders')); // sredoC dna dlrow olleH
console.log(balikKata('John Doe')); // eoD nhoJ
console.log(balikKata('I am a bookworm')); // mrowkoob a ma I
console.log(balikKata('Coding is my hobby')); // ybboh ym si gnidoC
console.log(balikKata('Super')); // repuS
```
