Logic Challenge - Cari Pelaku (Regex)

Problem

Diberikan sebuah function cariPelaku(kalimat) yang menerima satu parameter berupa string. Function akan me-return jumlah berapa kali ditemukan kata "abc" secara berturut-turut di dalam kalimat tersebut. Gunakan regex untuk melatih kemampuan regex.

Code

```
function cariPelaku(str) {
  // you can only write your code here!
}

// TEST CASES
console.log(cariPelaku('mabcvabc')); // 2
console.log(cariPelaku('abcdabdc')); // 1
console.log(cariPelaku('bcabcac')); // 1
console.log(cariPelaku('abcabcabc')); // 3
console.log(cariPelaku('babcbacabc')); // 2
```
